#### Health and Hygiene

"Healthy mind resides in a healthy body." So start your day early and set a routine even during vacations. In addition you and your little one can spend some quality time playing, cycling, swimming to keep yourself fit and healthy. Encourage your child to take care of personal hygiene by inculcating the habits like washing hands, practicing yoga, eating healthy food etc.

#### The only way to learn Mathematics is to do Mathematics

Simple tasks could be assigned such as Tens and Ones Cards makes use of images of building blocks to represent groups of tens from 10 - 100, and groups of ones from 1- 10. By having a visual representation of how ones are grouped together to create tens, children develop an

understanding of larger numbers. This will speed up their counting and contribute to the development of their maths skills.
